THE PROGRAMME

Of Business to Be Both Houses of Congress During the Present Week.

War Against Civil Service Will Be Made in the House—Immigration Bill Will Be Considered in the Senate and May Be Passed After a Brief Debate.

WASHINGTON, Dec. 13.—If the present programme is carried out congress will adjourn for the holiday recess next Saturday. The week in the house promises to be made memorable by the formal inauguration of the war against the civil service law. The legislative, executive and judicial and appropriation bill, which will be taken up on Tuesday, contains the regular appropriations for the civil service commission, and whether or not all the democrats may favor the repeal or modification of the law, unite to strike down the appropriation for the commission as was done in the case of the agricultural crippling its operation. Undoubtedly a war will ultimate this course and the whole civil service question will be dragged into the arena of debate. How long the debate will last it is impossible to predict, but as this is the only item in the bill which will attract much of a speech, Chairman Cannon hopes and believes the bill can be passed before Saturday. This latter day, under an order made on Thursday has the law, unless by strike from the pending legislative, executive, judicial and appropriation bill, which stands on the calendar as the unfinished business, the pending order will be called up, and the pronouncing of eulogies upon the late Representative Holman, of Indiana, will be in order. Many warm friends of the measure is that there will be no very strenuous opposition to the immigration bill and that it may be passed after a brief debate. When a similar bill was before the senate the only amendment it made was to the treatment to negro citizens of Mexico, which was subsequently stricken out by the senate the friends of the bill are hopeful but that no one will be called upon to debate it. Lodge is expected to champion the opposition. They remember however, when it was necessary to obtain the bill a two-thirds vote requisite to suspend the rules, and that the probability of such an occurrence of opposing speeches. There appears to be no reason to doubt that when the vote shall be reached the bill will pass.

In special arrangements between Senators Carter and Ledger relative to respective claims to India, the immigration bill will be temporarily displaced on Tuesday in order to give Mr. Carter an opportunity to call up the bill providing for the next census. When this agreement was made on last Saturday it was understood that after the bill providing for the next census should be disposed of the senate would proceed to consider the immigration bill, but it is now said that the census bill will be followed by the bill for the admission of Utah as a state, which will be followed by the immigration bill. The census bill will be followed by the bill for the admission of Utah as a state, which will be followed by the immigration bill. The census bill will be followed by the bill for the admission of Utah as a state, which will be followed by the immigration bill.

THE INTERMENT

Of Mrs. Nancy A. McKinley's Remains Will Take Place Tuesday.

Last Night Mother of the President Passed Away at an Early Hour Sunday Morning, Surrounded by Relatives and Friends—The End Peaceful.

CANTON, O., Dec. 13.—Mrs. Nancy Allison McKinley, the aged mother of the president, died shortly after 4 o'clock Sunday morning. Almost from the time of her stroke of partial paralysis, which was announced Friday, and the wonderful vitality which kept death at bay so long had dwindled the friends and relatives into the belief that the end was approaching, but hoping against hope despite the verdict of her physicians. The demise of Mrs. McKinley was painless. All night long members of the family were watching and waiting for the last summons.

Besides the president and Mrs. McKinley, his wife, Mr. Abner McKinley, Mrs. Duncan and Miss Helen McKinley, the children of the deceased, the aged sister was there, Mrs. Aldge. Osborne, the only one of the Allison family remaining in Canton. Mrs. Duncan; Misses Grace and Mabel McKinley, James McKinley, Miss Duncan and Miss Osborne, grandchildren, were all in the sad party that witnessed the death scene in the gentle life. The president and his wife remained at the bedside for an hour after the death, but by 5 o'clock every member of the family had retired.

The funeral services over the remains of Mrs. Nancy Allison McKinley will be held in the First M. E. church of this city, under the auspices of the G. A. R. Interment will follow in West Lawn cemetery, just west of the city, on Tuesday morning after the arrival of the president and wife and officials from Washington who attend the funeral will leave for the latter city immediately after the services.

The arrangements so far as completed include the following: Mr. McKinley shortly after 2 o'clock Sunday morning.

It was at first thought by the family that the service should be of a more private nature, held at the homestead. It was soon learned however through the pastor of Mrs. McKinley's church and members of the congregation, as well as from other friends, that the number of friends who desired to pay their last tribute of respect to the beloved woman [illegible] Tuesday morning [illegible] the funeral [illegible] the church auditorium. [illegible] neighbors of the dead. They are: Judge William B. Day, H. [illegible] William A. Lynch, former Mayor [illegible] Judge Thomas H. Hubbard, Judge T. J. McCarty, David Zollars, former Mayor John F. Blake.

At daylight Sunday morning, at the suggestion of some of the older members of the congregation that an old time custom now almost forgotten be observed to publicly announce the death, the bell in the tower of the church slowly tolled off the years of her age.

It is a coincidence that Mrs. McKinley died almost on the identical hour of the day as did her husband on Thanksgiving, five years ago.

THE BIKE RACE.

It Is Now Admitted That the Track Was About 300 Feet Short.

NEW YORK, Dec. 13.—The managers of the six-day bike contest that was finished Saturday night in Madison Square garden now admit what has been alleged since the second day of the contest, namely, that the track Sunday surveyors went over the course and, although it was officially announced that the riders would travel a full mile for every nine laps just how short each "mile" was has not been learned.

When Miller finished winner of the [illegible] miles had been chalked up to him. From what has since been learned it is believed that the race was something like 300 feet short of a full mile, and the distance [illegible] was about 2,014 miles. Miller was 67 miles ahead of [illegible] the second man, and the latter will have to his credit something like 1,949 miles. However, by the terms of the contract Donnelly, of Typographical union No. 6, at a meeting of the union held on Monday night, was instructed that 65 of the 103 publishers had granted the request of the union for a nine-hour day. President Donnelly said that the other offices would doubtless come into the compact and that the threatened strike would possibly be averted.

Of the American Federation of Labor at Nashville, Tenn. More Than One Hundred Delegates From the Different States Present.

NASHVILLE, Tenn., Dec. 14.—The American Federation of Labor began its seventeenth annual session in this city Monday with an attendance of more than 100 delegates from different states and an equal number of visitors. The federation met in the hall of the house of representatives at the state capital at 11 o'clock. President Gompers presiding.

The hall presented a most attractive appearance being decorated with the flags of many nations. Hyalock Williams and Edward Harford, delegates from England, were introduced by the president. Mr. Wilson is a member of parliament, and Mr. Harford is the secretary of the railway employes organization. After the meeting had been called to order, William Aimison, of the local [illegible] delivered an address of welcome on behalf of the organizations of the city. Mr. Aimison spoke of the pleasure afforded by the assembling of the federation in this city, whose hospitality is proverbial; referred to the past and present struggles in the interest of labor; paid a high tribute to the men who have worked long and faithfully in the cause, and closed by expressing the hope that the deliberations of the body would be followed by great good to the working people and the public generally. President Gompers responded to the address, thanking Mr. Aimison and the labor organization for the hearty welcome accorded. The report of the committee on credentials was presented, after which President Gompers read his annual address. The convention then adjourned until 2:15 p.m.

The delegates will be well entertained while here. They will be given a barbecue Tuesday night and an opossum supper Thursday evening. On Wednesday night a mass meeting in the interest of organizing the city is to be held, and on Friday evening there will be a musical entertainment.

At the afternoon session the reports of the president and secretary were heard. Various committees of the convention were appointed and the regular business was commenced.

A meeting of representatives of various labor papers was held Monday night for the purpose of forming a press association.

Vice President McGuire presided at the afternoon session, which was well attended. Several reports were presented his report, showing an increase in receipts of $2,940 over the previous year. The amount had been expended in organization, and 34,200 new members were enrolled. The greatest item of expense was $1,839 for organization, and of this $2,000 had been used in sending organizers among the negroes in the South. Treat stated [illegible]

FOR NINE HOURS

Three Thousand Book and Job Printers in the New York City May Strike.

NEW YORK, Dec. 14.—It is probable that within 48 hours the 3,000 printers employed in the 102 book and job printing offices of this city will be idle—the result of a strike.

Typographical Union No. 6 has taken the first step. The union met in special session and decided to give the "boss" printers until Tuesday night to accede to the demand for a nine hour day at $3 for that time the demand remains unrecognized the printers will strike. And the union agreed that by a four per cent. campaign tax upon every dollar earned by the total union membership of five thousand to be used as a fund to support the strike.

All the union book and job printers of the United States and Canada are [illegible] struggle. If the New York printers win, their brethren elsewhere will probably insist on the nine hour day. It is generally said that the other offices would doubtless come into the compact and that the threatened strike would possibly be averted.

The Anti-Football Bill.

RICHMOND, Va., Dec. 14.—By a vote of five to four a committee of the senate Monday ordered a favorable report on an anti-football bill.

FIFTY-FIRST CONGRESS.

First Regular Session.

WASHINGTON, Dec. 8. SENATE.—During the session Tuesday no bills making or affecting private pensions measures were introduced in addition to several resolutions and some senate resolutions. An interesting contest for precedence in consideration between Mr. Lodge's immigration bill and the proposed legislation to confer authority upon the president to act for the protection of the government's interest at the sale of the Kansas Pacific railroad was pending at the close of the session.

The House session of the house Tuesday, though it lasted but an hour, witnessed a lively skirmish over the question of distribution of the committee rooms. Several committees clashed with jurisdiction over the subjects dealt with, the conflict of authority came between the ways and means committee and the banking and currency committee. The battle raged all along the line. During the debate Chairman Grosvenor, of this, drew the first gun against the civil service law and this soon became the leading issue and enemies of that measure into action. Mr. Johnson, of Indiana, in a playful warning declared that it is still so remarkable that the fifty-first congress has assembled to meet the fifty-second congress. Eventually Mr. Dingley, chairman of the committee on rules, introduced a resolution providing that the committee on ways and means should have committee all matters relating to the revenues, the bonded debt of the country and the tariff, and that the rest of the business of the house was then adopted.

WASHINGTON, Dec. 9.—Wednesday's session of the senate occupied less than an hour the time being largely consumed in the reference to presentation of memorials, resolutions and bills. The most prominent of these was Allen's (pop. Neb.) declaring it to be the sense of the senate that the following should be maintained as the political independence at Cuba, was made the subject of some remarks by the Nebraska senator in support of the resolution. Allen read from the message of the president in which the president for not carrying into effect the pledge of the republican party in favor of the international platform in recognize the independence of the Cuban republic. At the conclusion of Mr. Allen's remarks, the senate by resolution of Mr. Gallinger (rep. N. H.) went into secret session in respect to the memory of the late Ashley H. Weeks one of the members of the house of representatives from Massachusetts.

HOUSE.—The session of the house Wednesday lasted only about two hours. During that time it reported the pension appropriation bill, the first of the appropriation bills, and received notice that he would call it up immediately after the morning hour on Thursday. The committee on elections and the committee on rules presented reports which will be called up during the session of the house. There at 12 P. M. the house adjourned.

WASHINGTON, Dec. 10. SENATE.—The senate did a considerable amount of business, although it was not especially important. Several ordered or passed and there was very little debate. Senator Gallinger, chairman of the committee on pensions, called attention to the latitude in regard to private pension legislation in the house and gave notice that he would insist upon it that their bills for private pensions should be considered before they were reached. An attempt was made by Senator McBride to have the senate take up the bill for the relief of homeless sufferers, but the result was a request that the bill be printed and that information be had on the subject. An hour was then given to the appropriation for public buildings and it was passed. The resolution of the Pacific railroad committee asking information as to the sale of the Kansas Pacific was passed, which gave Senator Gear, of Iowa, and Senator Thurston, of Nebraska, an opportunity to make short speeches congratulating the people of Kansas upon the sale. Some work was laid out for the committees and the senate adjourned over Saturday for his census bill [illegible] Senator Allen [illegible] Nebraska, introduced a bill providing for the free coinage of silver at the ratio of 16 to 1. [illegible] Senator Allen [illegible] Nebraska, introduced a bill providing for the free coinage of silver at the ratio of 16 to 1. [illegible] Senator Allen [illegible] Nebraska, introduced a bill providing for the free coinage of silver at the ratio of 16 to 1.

HOUSE.—The house Friday passed the pension appropriation bill without material amendment. The amendments offered by democrats to restore the pensions reduced by the Harrison administration were all rejected on the points of order that they were not germane to the bill. The bill carried $141,282,000. The debate Friday touched not only the question of our pension policy, but that of civil service reform and the general expenditures of the government under the Harrison administration, in which he expressed the opinion that the present congress would not adjourn before the close of the present fiscal year. Speaker Reed's appointment of the committee on rules [illegible] Thursday [illegible] next year. The civil service reformers were [illegible] of several members, notably Mr. Brown (rep. O.) and Mr. Linney (rep. N. C.) and was warmly defended by Mr. Dingley, of Maine. The session at the close of the session Mr. Hitt, chairman of the committee on foreign affairs, secured by unanimous consent for the passage of the bill providing for a nine hour day for employes of the government printing office. There were [illegible] Monday [illegible] Mr. Hitt [illegible] agreement, however [illegible] Monday.

WASHINGTON, Dec. 14. SENATE.—Mr. Lodge (Mass.) made an effort in the senate Monday to secure an immediate vote upon his immigration bill, but the Nebraska silver question was pressed, and Mr. Morton, of Ohio, which grew out of a controversy that occurred last year in the senate over the Nebraska contested election case. The point at issue was as to whether a certain word used by Mr. Turner, in debate, in which he had explained any imputation of motive should appear in the printed report of the debate. A party vote, 36 to 12, sustained Mr. Hepburn. Resolutions were offered by Mr. Allen and Mr. Call appropriating $20,000 for the relief of the Dutch Reform Church in Cuba, and for property taken during the civil war.

KENTUCKY STATE NEWS.

GRAVE DIGGERS

And Those Who Assisted at the Funeral Proceeded by Armed Guards.

RICHMOND, Ky., Dec. 11.—The quiet of a country funeral was changed to a scene of considerable excitement during the burial of Mrs. Phoebe Allen, at Lyons. The cemetery owner, Dr. Chamberlain, objected to the body being interred until the lot was paid for. The Allen children claimed that the lot was bought and paid for in full five years ago, and they ordered the grave to be dug. The sexton commenced work, but as fast as he threw out the earth employes of Dr. Chamberlain shoveled it back in, nearly burying the grave digger alive. Justice of the Peace Daniel Engle was appealed to, and he had a posse of constables, armed with revolvers, stood guard until the grave was dug and until the lady had been lowered and the service read.

☞ Business House for Sale.

A first-rate brick business house, on Clinton Street, for sale on reasonable terms. Time given if desired. Apply to G. S. WILSON.

—Christmas will soon be here, and it ought to be the gladdest, merriest, happiest time in all the year to children. Never matter old, or sad, or poor you know folks may feel, we ought to try and enter with the children into the spirit of the joyous day. Don't throw a damper on their light-heartedness; don't destroy their beautiful child faith in Santa Claus. If you, yourself, feel that Santa Claus is very poor this year, tell your children so, but tell them in such a manner that they will not feel utterly hopeless. Tell them of the poor children in our great cities, the homeless and the orphans, without food and without clothes. Tell them how Santa Claus has to think of all these, how he has to divide among so many, so many that need so much more than they do, and if you tell your story rightly, and if your children's hearts are in the right place, there will be no tears on Christmas morning if the stockings hold nothing but rosy-cheeked apples. Then if your children's Christmas in regard to presents must be slight, make it up to them by giving every somebody to play determined that they shall have a good time. There is much happiness that can be had without money. So shall you have from your children's delight a sort of reflected gladness, and the coming cold will be happy together on Christmas day.
